

# Feeney® Protector Sleeves

for use with CableRail in wood railing posts

Stainless steel protector sleeves protect the corner and stairway transition posts from cable abrasion inside the post holes. Protector sleeves are made from 316-grade stainless steel.

**FOR USE WITH:**

-  Wood
-  Composite sleeved wood

**INSTALLATION**

Drill 1/4-inch holes for the cable to pass through.

Tap Protector Sleeves with a hammer until flange is flush with post face.
