# DesignRail® Modern Kits

## Modular Aluminum Rail Kits

Engineered for **easy installation** using components that **snap and screw together**, with **pre-drilled posts and pickets** to support 6200 series 1/8" CableRail Kits for Metal posts (sold separately). All our Modern Rail and Post kits feature 6000 series aluminum and AAMA-2604 powder-coated finishes for long lasting beauty and durability, and are available for 36-in and 42-in high railings. Type and quantity of kits required is dependent upon project configuration and size.

### FLEXIBLE FRAME DESIGN

- **6' or 8' Rail Kits** available for 36" level and stair railings, 6' Rail Kits available for 42" level railings
- Sleek, new **code compliant top rail** for level and graspable stair - **Series 250**
- **Optional Drink Rail Adapter**
- **No Bottom Rail**
- Hidden Post to Rail connections, **no bulky brackets**
- Pre-drilled, base mounted posts for CableRail
- Powder-coated aluminum with stainless steel fasteners

### FRAME COLOR OPTIONS

Durable, powder coated finishes adhere to AAMA-2604 coating specifications for superior color retention, impact resistance, and weather protection.

### MAINTENANCE GUIDELINES

Stainless steel cables should be cleaned periodically. Cleaning frequency will depend on the environmental conditions that the product is placed in. Feeney recommends our Stainless Steel Cleaner & Protectant Kit for maintaining stainless steel products. Alternatively, warm water and mild soap can be used.

Rinse your railing frame with fresh water. Remove dust and dirt with a soft cloth or sponge and a solution of mild soap and/ or liquid detergent in water. Always use a soft, damp cloth to blot dry. Avoid harsh solutions or abrasive cleaning compounds, included but not limited to: alkaline or acidic cleaners, solutions containing trisodium phosphate, phosphoric acid, hydrofluoric acid, gasoline, benzene, acetone, carbon tetrachloride, certain deicing fluids, lacquer thinner or other strong solvents.

Product should be cleaned when the metal is shaded.

## POST KITS

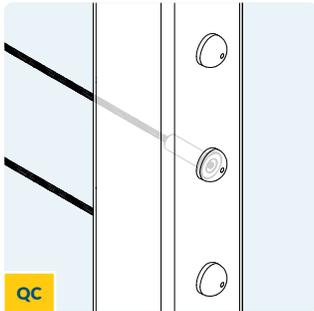

Each Modern Post Kit includes a post with a pre-attached base plate, a post cap, and mounting screws with caps. All posts come pre-drilled for the cable fittings or for cables to pass through. Stair posts are pre-drilled at an angle to accommodate a stair slope of between 29 and 34 degrees. Level Post Kits are available for railings in two heights: 36-in with 11 pre-drilled cable holes, or 42-in with 13 pre-drilled cable holes. Stair Post Kits are available for 36-in stair railings only. Blank posts are available for unique installation conditions.

Isolation bushings are recommended for installations in harsher climates, such as areas near salt water.

**DESIGN NOTE:**  
Use Feeney Base Plate Covers (sold separately) for a more finished look.

**LACING NEEDLE**

For quickly lacing cable ends through posts without snagging. #3221-PKG

**CURVED LACING NEEDLE**

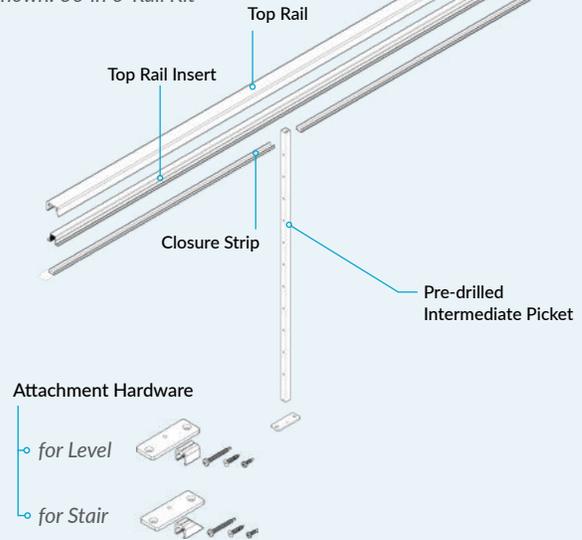

For quickly lacing cable ends through Single Corner posts. #3221-CURVE-PKG

**RAIL KITS**

Modern Rail Kits contain the rails that run between the posts. Each kit includes a top rail and 1 or 2 pre-drilled intermediate pickets, as well as all necessary attachment hardware. Rails can be trimmed to exact length and stair slope in the field. Sleek new top rail for level and stair applications. Meets graspable handrail building code requirements. The optional Drink Rail Adapter can be added for level sections of the railing.

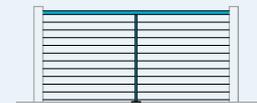

Use Rail Cut Kits if cutting a single Rail Kit for use in multiple smaller sections.

# DesignRail® Kits Modern Order Checklist

STEP 1

## Choose Rail Kits based on Rail Height and Application

Modern Rail kits come in 6-ft and 8-ft lengths for 36" level and stair railings; 6-ft kits are available for 42" level railings only. Each kit includes a top rail and all necessary attachment hardware to install between posts chosen in Step 2. One intermediate picket is included with 6-ft kits, two are included in 8-ft kits. Sleek new top rail for level and stair applications. Meets graspable handrail building code requirements. The optional drink Rail Adapter can be added for level sections of the railing.
