

## Feeney® Beveled Washers

*for use with CableRail Kits in wood or composite railing frames*

Stainless steel Beveled Washers are used to provide a flat bearing surface when attaching fittings at angled stair termination posts only. Each termination fitting style has a corresponding beveled washer size, both cut to 32° bevel to fit most stair slope angles.

### BEVELED WASHERS FOR QUICK-CONNECT® FITTINGS

Beveled washers for Threaded Terminal Fittings (SKU #3799-pkg) have a 3/4" outside diameter and 3/8" inside diameter.

Beveled washers for Quick-Connect® Inset Fittings (SKU #3792-pkg) for 1/8" cable have a 3/4" outside diameter and 3/8" inside diameter.

### BEVELED WASHERS FOR THREADED TERMINAL FITTINGS

### INSTALLATION

Slide the beveled washer onto the cable protruding from the post face then slide the fitting onto the cable and proceed with installation steps.
