

# CABLE·RAIL<sup>®</sup> CUSTOM

## Quick-Connect<sup>®</sup> Jaw Turnbuckle

Feeney<sup>®</sup> Quick-Connect<sup>®</sup> Jaw Turnbuckles are Tension Adjustment fittings used with metal railing frames. They attach to eyebolts, eyelets or drilled tabs using a removable clevis pin. Jaw Turnbuckles are ideal for stair railing frames with 180° pivoting, but can also be used in level applications if desired. Use with Feeney Bulk Cable, sold separately.

### FEATURES & BENEFITS

- For use with metal frames, stair or level railings
- Made of Type 316 marine-grade stainless steel
- Machined flats allow tools to securely grip the fitting to adjust tension without marring the polished surface
- Adjust tension by spinning the tubular body while holding the Quick-Connect<sup>®</sup> end with a 3/8" wrench or the Feeney Wrench Wheel
- Attaches with removable clevis pin, allows for 180° pivoting
- Typically paired with a Jaw Fixed End fitting for one run of cable

## QUICK-CONNECT® TECHNOLOGY

Feeney Quick-Connect® fittings offer the flexibility of assembling cables in the field with simplicity and speed. Patented automatic-locking-jaws grip the cable with no need for specialized tools. Simply trim your cable to length, push the end into the Quick-Connect® fitting, and the spring-loaded jaws automatically engage. You're ready to go!

Made from 316-grade stainless steel for weather-tough durability, low maintenance, and lasting beauty. Fittings also come with a silicone protection seal pre-inserted into the end, providing added protection against dirt and debris entering the body of the fitting. If necessary, our Quick-Connect® Release Tool can be used to disengage and remove or readjust the fitting.

### CABLE ASSEMBLIES

There are two types of fittings: Fixed End fittings and Tension Adjustment fittings.

**Each cable assembly must include at least one Tension Adjustment fitting.**

### TENSION ADJUSTMENT FITTINGS

- Include Tensioner fittings, Turnbuckles, Threaded Terminals, and Adjusters
- Tension is adjusted by spinning the tubular body on Tensioners and Turnbuckles, tightening the bolt on Threaded Terminals, or rotating the bolt on the Adjusters
- Tension Adjustment fittings can be paired with either a Fixed End or another Tension Adjustment fitting.

### FIXED END FITTINGS

- Non-adjustable end termination fittings
- No tensioning capabilities
- Must be paired with a Tension Adjustment fitting

#### NOTE:

CableRail is made of marine grade stainless steel and will last for years with regular maintenance. Learn more: [feeneyinc.com/Warranty-and-Care](https://feeneyinc.com/Warranty-and-Care).

### EASY INSTALLATION

TRIM CABLE TO LENGTH

INSERT CABLE INTO FITTING

JAWS LOCK AUTOMATICALLY

### SPECIALLY ENGINEERED TOOLS FOR CABLERAIL

#### Quick-Connect® Release Tool

For releasing the Quick-Connect® jaws to remove or adjust fitting.

#### Wrench Wheel

An easy-to-use tool for tensioning Quick-Connect® Tensioner fittings.

#### Cable Lacing Needle

For quickly lacing cable ends through posts without snagging.

#### Cable Tension Gauge

Easy-to-use tool for checking cable tension.

#### Stainless Steel Cleaner Kit

Clean and maintain all stainless steel surfaces, fittings, and cables.
