CABLERAIL KITS

Kit Components & Accessories

CableRail Kits

CableRail Kits can be installed on wood or metal railing frames in interior, exterior, residential, or commercial settings.

Each kit includes the selected length of 1/8" diameter cable with special Threaded Terminal pre-attached, a Quick-Connect[®] Inset fitting, flat washers, and a Snug-Grip[®] Washer Nut.

CableRail Fittings

Each CableRail Kit comes with a stainless-steel Threaded Terminal fitting pre-attached to one end of the cable.

The Terminals come in two lengths: 4-1/4" for metal posts and 7-1/2" for wood posts.

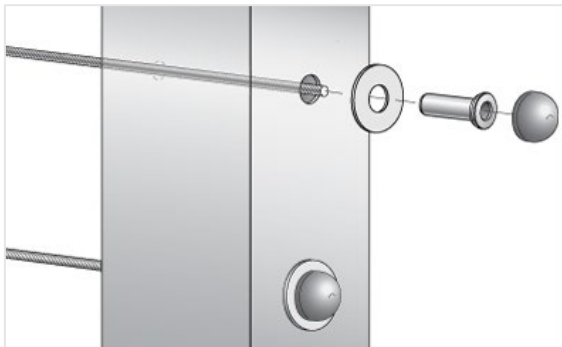

Attach it to an end post using the included Snug-Grip® Washer-Nut and spin the nut to adjust final tension in the line. Trim any excess threads and finish with an End Cap (sold separately).

CableRail Fittings, (cont'd)

The stainless Quick-Connect® Inset fitting is attached to the cable in the field without special tools.

One-way jaws allow the cable to easily slide through in one direction but automatically grab and lock-on when the cable is released.

Just slip the Quick-Connect® Inset fitting on, pull the cable tight, and cut off the excess.

Finish with an End Cap (sold separately).

CableRail Kit Accessories

Stainless Steel End Caps & Colored End Caps are a decorative option for covering and finishing Snug-Grip® Washer-Nut and Quick-Connect® Inset Fittings.

Protector Sleeves for protecting corner and stairway transition posts from cable abrasion (*wood posts only*)

Beveled Washers for attaching end fittings on angled holes at stair end posts.

CableRail Cutters and Pickets

Cable Cutter (1/8) Max

is used for trimming excess cable.

Feeney Intermediate Pickets

Slender, low-maintenance, time-saving vertical spacer option for wood railings. Stainless steel and powder coated aluminum options drilled at 3" spacing for CableRail cables. Can be trimmed to size and include all base plates and screws.

CableRail Installation and Maintenance Tools

Cable Lacing Needle

Simple tool for quickly lacing cable ends through the post holes without snagging.

Release Tool

for disengaging and removing or readjusting all styles of Quick-Connect® fittings.

Stainless Steel Cleaner & Protectant (SteelRenewal™ & SteelProtect™)

for cleaning and protecting stainless steel cables and hardware.

CableRail Installation and Maintenance Tools

Hanger Bolt Installation Tool

For easy Installation of hanger bolts used for Lag and Pivot style fittings. Hexagonal shaft fits 1/2" electric drill or 1/2" socket wrench.

Quick-Connect® Wrench Wheel

For use with 1/8-in. Quick-Connect® Tensioner fittings. Securely grips onto the wrench flats of the Quick-Connect® fitting, using a specially designed spring ball retainer.

CableRail Tensioning Tool

6X gear ratio lets installers tension CableRail with minimal effort. Built-in tension indicator ensures consistent tension is applied to the cable. Works with 1/8-in., 3/16-in.*, and 1/4-in.* diameter cable. 3/16-in. and 1/4-in. diameter cable adapter head is available separately through special order.
