

Feeney® Cable Cutters

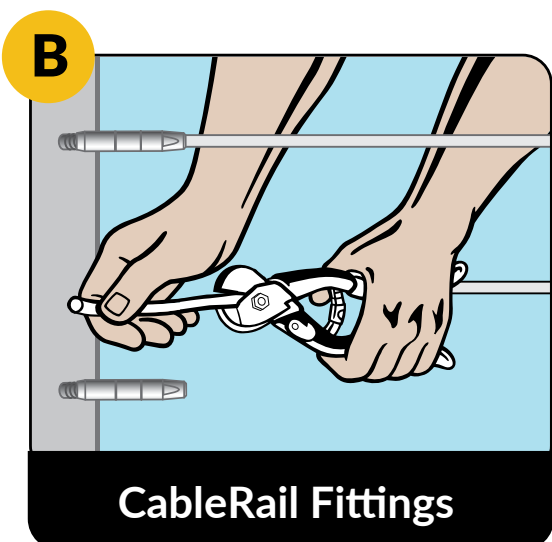

for use with CableRail

Feeney Cable Cutters (SKU: 2972) have hardened steel jaws specially engineered for shearing 1/8-in 1x19 cables easily without crushing.

CABLERAIL KITS

Cable Cutters are used when installing CableRail Kits to trim the excess cable on the outside faces of the posts once the cables have been completely tightened.

CABLERAIL FITTINGS

Cable Cutters are used when installing CableRail Fittings to trim the cable to the cut line before inserting into the Quick-Connect® tensioner fitting.
